When thirteen-year-old Meg's father mysteriously vanishes, three eccentric and otherworldly neighbors send her on a mystical journey through the stars to find him. Meg and her companions travel across galaxies, through space and time, as the power of love and light battles the darkness. This 50-minute stage adaptation of the beloved young-adult science-fantasy novel is a dramatic adventure for a small ensemble of young actors. As The Academy's gift to the community, in collaboration with the Marion County Literacy Council, we would like to offer this as a non-tuition-based performance opportunity.
